ABOUT SAFERA

SAFERA is a partnership between 16 research funding organizations from 12 European countries who collaborate on research programming and launch joint calls in the field of industrial safety. It prolongs the work developed in the SAFERA ERA-NET, which was funded by the European Union's Seventh Framework Programme for research, technological development and demonstration during the period April 2012 – March 2015. Industrial safety is an enabling success factor in the pursuit of beneficial and sustainable business activities.
